ABOUT THIS REPORT
Pursuant to DC Code § 2-219.04, the District of Columbia Department of Employment Services (DOES) is required to report, on a semi-annual basis, the number of First Source agreements executed, the number of newly available jobs open because of executed First Source agreements, the number of unemployed District residents, and the number of District residents employed as a result of government-assisted projects or contracts. DOES, through the Office of First Source Compliance (OFSC), oversees compliance and enforcement of the First Source law and is responsible for monitoring employers’ First Source requirements.

ABOUT FIRST SOURCE
As the District’s workforce agency, DOES is responsible for ensuring compliance by monitoring and enforcing First Source requirements for all District government-assisted projects or contracts valued at $300,000 to $5,000,000. These employers are required to meet the residency requirement by ensuring at least 51 percent of all new hires are District residents. This requirement ensures District residents are given first consideration for job opportunities.

ROLE OF THE DEPARTMENT OF EMPLOYMENT SERVICES IN FIRST SOURCE

DOES is integral to First Source compliance and to the District’s strategy to reduce unemployment. There were 55,094 unemployed District residents on the DC First Source Register as of June 30, 2020, a significant increase from the last reporting period due to the COVID-19 public health emergency. As a result, it remains important for DOES to continue its collaboration with other District agencies to ensure contracted employers meet the minimum hiring requirements under the First Source law and that all contractors and subcontractors are informed of the First Source law and its compliance and reporting requirements. DOES also monitors contractor requirements with weekly desk reviews, meetings, and periodic site visits.
