

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
Part 1: General Instructions  
Revised: February 27, 2012

***I. MAGNETIC MEDIA WAGE REPORTING REQUIREMENTS AND PROCEDURES***

This booklet contains the District of Columbia's specifications and instructions for Unemployment Insurance contribution and wage reporting on magnetic media.

For purposes of this publication, "DOES" refers to the District of Columbia Department of Employment Services. The term "magnetic media" and "disk" refers to a standard CD-ROMs.

## **ICESA Format Requirement**

DOES encourages all employers who currently report wages on magnetic media or print their own copies of the UC-30 form, all fiscal agents, and larger employers to submit complete contribution and wage data on magnetic media using the ICESA format. This format is a national standard for unemployment insurance reporting, and provides for transmission of both employer tax data and employee wage data electronically. Reporting in this format eliminates the need for printing paper reports.

In the future, DOES will provide a Web reporting and payment application for smaller employers who may not have the technical facilities needed to produce reports in ICESA format. DOES will continue to accept paper reports on UC-30 and UC-30H forms printed and mailed by DOES. On the other hand, DOES will no longer accept: UC-30 forms (facsimiles) printed by the submitter or wage data using the 80 byte format.

This document details the requirements for reporting in the ICESA format.

## **Preparation for Compliance**

In order to prepare for the mandatory use of the ICESA format, DOES strongly encourages all employers and fiscal agents who currently submit wage data on magnetic media and print paper UC-30 forms (facsimiles) to begin sending contribution and wage reports on magnetic media as soon as possible.

**Before sending live data, employers and fiscal agents must send a test submission and receive approval from DOES. Even organizations currently sending wage data on magnetic media MUST send a test submission and receive approval.**

**PLEASE NOTE:** Employers using third party software to create their report file **MUST send a test submission even if the software has been approved by DOES.**

The steps in the test submission program are:

- Review the detail provided in this booklet.
- Obtain permission from DOES to send a test submission from the contact listed below; DOES will not accept data without pre-approval.
- The test data must be received at least two months before the next live report due date
- Follow the guidelines in this booklet and review the data for accuracy before submitting.

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
Part 1: General Instructions  
Revised: February 27, 2012

- Following the test submittal DOES will advise the submitter whether the data were acceptable or whether changes are needed.
- Employers and fiscal agents may not send live data before receiving approval of the test submission from DOES.

## Permission to Use Magnetic Media and the Submission of Test Files

The best way to submit a test file is to use real data from a prior quarter. To test the submission, we run the file through all the normal edits (using a test environment). These edits require consistency in the data submitted – for example, the sum of all wages on the “S” records must equal the total wage amount on the “T” record. A file submitted using dummy data may fail this type of edit.

Contact:

**Philip Sadler**

Phone: 202-698-5683

E-mail: philip.sadler@dc.gov

Submission Address for approval (Data not accepted without pre-approval) should be addressed to:

**DC DEPARTMENT OF EMPLOYMENT SERVICES**

Office of Information Technology

4058 Minnesota Avenue N.E.

Washington, DC 20019

Attn: Philip Sadler, room 209

### Submission Address for Quarterly Reporting and Payment (Live Data)

**ICESA combined** magnetic media submissions of tax and wage data must be sent to the following address:

**DEPARTMENT OF EMPLOYMENT SERVICES**

Unemployment Insurance Tax Division

4058 Minnesota Avenue, N.E.

Washington, DC 20019

Attn: Unemployment Insurance Tax Division

**Payment by check must be included in the same package as the ICESA magnetic media and transmittal.**

Please note that this address is different from the one used for paper UC-30 forms. ***Do not send these submissions to the PO Box used for paper reports.***

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
Part 1: General Instructions  
Revised: February 27, 2012

## External Labels, Transmittal Forms

Each disk must have a label with the following information:

- The submitter's name
- The DOES account number (for submissions containing only one employer)
- The reporting period
- Contact person's name
- Contact phone number
- E-mail address

In addition, each submission must include a transmittal with the following information:

- The name of the agent or employer
- The year and quarter of the report
- The date of the submission
- A listing of each employer in the submission including:
  - The employer's name
  - The employer's FEIN
  - The employer's DOES account number
  - The amount of the employer's remittance

When sending a test submission, the word "TEST" must appear on the external label.

DOES will not return disks.

## Employer's Responsibility

The employer has ultimate responsibility for the accuracy and timeliness of reports. If an accountant or fiscal agent submitting reports on behalf of an employer fails to meet the magnetic media filing requirements, the employer remains liable for any penalties and interest that might be applicable.

### Tax Form Submission

Employers and fiscal agents submitting reports on magnetic media **must not** send paper reports in addition to the disk.

### Social Security Numbers

Wage data must include a valid social security number for each employee. Submissions received without valid social security numbers will be considered incomplete, and the employer may be subject to penalty and interest.

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
Part 1: General Instructions  
Revised: February 27, 2012

### **Administrative Assessment**

The District of Columbia requires all liable employers to pay an administrative funding assessment of two-tenths of one percent (0.2%). Funds from this assessment will be used exclusively for the administration of the District's Unemployment Insurance (UI) program. This funding assessment applies to payroll reports beginning with the report submitted for the quarter ending March 31, 2006.

This administrative assessment is payable on the first \$9,000 of wages paid during each calendar year to each employee. In terms of dollars, the maximum annual assessment amount is \$18 for every employee who earns \$9,000 or more in a year.

Please note the following important point: Only the amount paid in regular UI taxes can be reported to the Internal Revenue Service (IRS) on Form 940. The amount paid in administrative assessment is not reportable to the IRS.

### **Tax Rates on Magnetic Media**

Note the following if you:

- participate in the "Rate Data Exchange" process through which DOES provides UI tax rates each quarter
- submit wage and contribution reports on magnetic media using the ICESA format (i.e., with no printed UC-30 form)

Beginning with the first quarter of 2006, the rating data that DOES sends will contain a combined rate that is the sum of the employer's UI Tax rate plus the administrative assessment rate. The administrative assessment rate is 0.2% (or 0.002 if expressed as a fraction). For example, if an employer's current UI tax rate is 1.3%, the new combined tax rate that appears in the rating data will be 1.5%.

Use the following procedure to determine the tax payment amount reportable to the IRS on form 940:

- Calculate the employer's UI tax rate by subtracting 0.2% from the combined rate.
- Calculate the UI tax payment reportable on form 940 by multiplying the taxable wages by the UI tax rate.

For example, if an employer's combined rate is 1.5%, and total taxable wages are \$9000.00:

- The total payable to DOES (UI tax plus the administrative assessment) is \$135.00.
- The UI Tax rate is 1.3% (exclusive of the administrative assessment).
- The UI tax payment reportable to the IRS is \$117.00.

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
Part 2: Common Problems  
Revised: February 27, 2012

***II. Common Problems with Magnetic Media Submissions***

Please review your data to make sure it complies with all requirements. The following list describes commonly found problems. Submissions received with any of the problems below will need to be corrected and resubmitted – this may result in charges for penalty and interest.

- **Production submissions received without approval.**

There is a formal approval process for magnetic media submissions. See Part I of this documentation (“Magnetic Media Wage Reporting Requirements and Procedures”) for details.

- **Submission mailed to the wrong address**

The correct address is: **4058 Minnesota Ave NE Washington, D.C. 20019, Attn: Theresa Roy, ICESA Desk.** Do not mail magnetic media submissions to the PO Box used for paper UC-30 reports.

- **Paper reports**

Employers submitting their reports on magnetic media must not send paper reports in addition. This only creates confusion.

- **No contact information on external labels.**

The external label on the submission must include contact information. This is essential in order to resolve any problems with the submission quickly. Submissions for a single employer should have the employer account number on the label as well.

- **No contact information in the “A” record in the submission.**

Contact information identifying the organization that prepared the submission must be included where required in the submission itself.

- **Remittance check amount does not equal the Tax Due and Total Payment Due fields in the submission itself.**

The amount of the check must equal the sum of the amounts due for each employer included in the submission. No reports will be processed if the amounts do not match.

- **Incorrect calculation or reporting of administrative assessment.**

There are specific fields in the technical data description for reporting the administrative assessment. If the amounts are not in the correct fields, the payments reported in the submission will not balance with the amount of the check, and the submission will be rejected.

- **Inconsistent wage data.**

The submission reports the wages for each worker separately and also reports the total wages for all workers for a given employer. The sum of the wages for all workers (“S” records) must equal the total wages (“T” record).

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
Part 2: Common Problems  
Revised: February 27, 2012

- **Credit and other Adjustments.**

No adjustments may be included in the submission. For refunds of overpayments, contact Tax staff.

- **Incorrect Quarter Date for submission.**

The quarter found in the data in the submission must be correct.

- **Multiple entries for the same employer.**

Data for a given employer must appear only once in the submission. From the technical side, this means that there may be only one "E" record for a given account number. Another technical requirement is that all "S" records for a given employer must follow the "E" record. The order given in the ICESA specification may not be altered.

- **FEIN used as Employer Account Number.**

The employer account number assigned by DOES must be included in addition to the FEIN where required.

- **Disks not saved with a carriage return/line feed at the end of each line.**

Each data record must end with the standard carriage return/line feed characters.

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
Part 3: Technical Requirements  
Revised: February 27, 2012

### **III. DATA RECORD DESCRIPTIONS**

The following is a description of the data records that are used to create magnetic media reports. Use the information provided below as well as the list of technical requirements and specifications in the other sections of this manual to prepare reports via magnetic media.

DOES does not require data in every field defined in the ICESA format. The charts below indicate which fields are required. When a field is marked as required, it must contain valid data.

#### **Formatting of Money Amounts:**

- All money fields are strictly numeric.
- They must include dollars and cents with the decimal point assumed. For example, \$12,345.67 entered in a field defined as 14 bytes long will look as follows:  
0000001234567
- Do not use any punctuation in any money field.
- NEGATIVE (CREDIT) MONEY AMOUNTS ARE NOT ALLOWED.
- RIGHT JUSTIFY AND ZERO FILL ALL MONEY FIELDS.
- IN A MONEY FIELD THAT IS NOT APPLICABLE, ENTER ZEROS.

## **ICESA Record Types**

The ICESA format consists of 6 record types:

#### **TRANSMITTER RECORD: CODE A**

The Code A record identifies the organization submitting the file. There is only one Code A record, and it must be the first data record on each file. (See Section III for multiple volume disk requirements.)

#### **AUTHORIZATION RECORD: CODE B**

The Code B record identifies the type of equipment used to generate the file.

The Code B record, if included, must be the second data record on each file. (See Section III for multiple volume disk requirements.)

The Code B record should contain the address where the file can be returned if the state is unable to process it. Address entries should be specific enough to ensure proper delivery and must be made precisely according to the specifications.

#### **EMPLOYER RECORD: CODE E**

The Code E record identifies an employer whose employee wage and tax information is being reported.

There may be multiple Code E records in the file if the submission includes multiple employers. Each Code E record is followed by a set of Code S records for employee wages. The complete set of employer records

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
Part 3: Technical Requirements  
Revised: February 27, 2012

concludes with a Code T record that contains summary information for the employer, such as total wages, taxable wages and the remittance due.

**There may be only one Code E record for a given entity (i.e. for a given Federal EIN).**

**EMPLOYEE RECORD: CODE S**

The Code S record is used to report wage and tax data for an employee.

The set of Code S records will follow a code E employer record.

Do not generate a Code S record if only blanks would be entered after the record identifier. When filing a "zero wage" report, it is not necessary to include any Code S records. The Code E record must be followed by a Code T record.

**Name Formats on the Code S Record**

- The employee name on the magnetic media file must agree with the spelling of the name on the individual's social security card.
- Parts of a compound surname must be connected by a hyphen. Single-letter prefixes (e.g., "O," "D,") must not be separated from the rest of the surname by a blank, but should be connected by an apostrophe.
- Punctuation may be used when appropriate.
- Lower case letters are not acceptable.
- Do not include any titles in the name. Titles make it difficult to determine an individual's name and may prevent properly crediting earnings data.

**TOTAL RECORD: CODE T**

The Code T record contains the totals for all Code S records reported for the employer.

A Code T record must be generated for each Code E record.

See the Employee Wage Record (Code S) description for information about reporting money amounts.

**FINAL RECORD: CODE F**

The Code F record indicates the end of the file and **MUST** be the last data record on each file submitted. (See Section III for multiple volume disk requirements.)

The Code F record must appear only once on each file, after the last Code T record.

See the Employee Wage Record (Code S) description for information about reporting money amounts.

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
Part 3: Technical Requirements  
Revised: February 27, 2012

## **File Name**

The file name must be DCWAGE.TXT. It MUST be in the root directory

A disk must not contain more than one file. If more than one file of unemployment insurance wage information is being submitted, each file must be named DCWAGE.TXT and each file must be placed on a separate disk. No files other than DCWAGE.TXT should be included on a disk. (Exception--see "Multiple-Volume Submission" in this section.)

Transmitters of unemployment insurance wage information for multiple employers should avoid creating a separate file and a separate disk for each employer.

## **Operating System**

All 3½" diskettes must be created using an MS-DOS "double density" or "high density" operating system format.

If you do not have an MS-DOS operating system, you may still be able to create MS-DOS compatible diskette files. Some operating systems, e.g., UNIX, XENIX and APPLE, may have a DOS shell that can be used to create these files. For UNIX/XENIX based systems use DOSCP command to create an MS-DOS compatible file. Check your operating system manual.

## **Character Set**

Data must be recorded on 3½" diskettes or CDs using the ASCII-1 character set.

Note: EBCDIC and ASCII-2 are not acceptable for disk reporting.

## **Record Length**

Each record in a file MUST be 275 characters in length. Data must be entered in each record in the exact positions shown in Section V.

## **Formatting**

Data sent on 3½" "double density" or "high density" diskettes MUST be formatted to the density specified by the diskette manufacturer.

## **Delimiters**

Record delimiters must be used. They must follow the last character of each record.

The record delimiter must consist of two characters and those two characters must be carriage return and line feed. The ASCII-1 hexadecimal value for the carriage return character is 0D (zero and letter D); the ASCII-1 hexadecimal value for the line feed is 0A (zero and letter A). The ASCII-1 decimal values for the two characters are 13 and 10, respectively.

A record delimiter must appear immediately after the last character of each record. The carriage return character and the line feed character will be placed in positions 276 and 277, respectively.

DO NOT place a record delimiter before the first record of the file.

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
Part 3: Technical Requirements  
Revised: February 27, 2012

DO NOT place more than one record delimiter i.e., more than one carriage-return/line-feed combination, following a record.

DO NOT place record delimiters after a field within a record.

## **Multiple-Volume Submission**

A multiple-volume disk submission is a submission for which the number of data records exceeds the capacity of a single disk, so the data must be continued on to one or more subsequent disks, i.e., volumes. A multiple-volume disk submission properly begins with a Code A record on volume 1 and ends with a Code F record on the last volume.

Only the file "DCWAGE.TXT" on volume 1 of a multiple-volume disk file should begin with a Code A record. Each volume after volume 1 should contain a file named "DCWAGE2.TXT" for the second volume and "DCWAGE3.TXT" for the third volume, etc. Each file should begin with the record that properly follows the last record on the preceding volume/file. For example, if volume 1 ends with a Code S record, volume 2 begins with the next code S record for that employer.

The external disk labels for a multiple-volume submission MUST indicate the proper sequence (e.g., VOL 2 of 3) for processing.

District of Columbia Department of Employment Services  
**ICESA Tax and Wage Reporting**  
 Part 3: Technical Requirements  
 Revised: February 27, 2012

**MAGNETIC MEDIA SPECIFICATIONS**

**STANDARD MAGNETIC FORMAT FOR QUARTERLY WAGE REPORTING**

The tables below detail the data requirements for each record type. The last column indicates whether the data element is required. For DOES to accept the submission, it must meet the following requirements:

- Each record type must be present.
- The records must be in the correct order.
- All required fields must have valid data.

**Record Type "A:" Transmitter**

Location	Field Name	Field Length	Type	Description	Required?
1- 1	Record Identifier	1	A/N	Constant "A"	Yes
2 – 5	Year	4	A/N	Year (CCYY) for which this report is being prepared	Yes
6 – 14	Transmitter's Federal EIN	9	N	Enter only numeric characters; omit hyphens, prefixes and suffixes.	Yes
15 – 18	Taxing Entity Code	4	A/N	Constant "UTAX"	Yes
19 – 23	Blanks	5	A/N	Enter Blanks	Yes
24 – 73	Transmitter Name	50	A/N	Enter the transmitter name of the organization submitting the file.	Yes
74 – 113	Transmitter Street Address	40	A/N	Enter the street address of the organization submitting the file.	Yes
114 – 138	Transmitter City	25	A/N	Enter the city of the organization submitting the file	Yes
139 - 140	Transmitter State	2	A/N	Enter the standard two character FIPS postal abbreviation: DC = 11	Yes
141 - 153	Blanks	13	A/N	Enter blanks	Yes
154 - 158	Transmitter Zip Code	5	A/N	Enter a valid zip code.	Yes
159 - 163	Transmitter Zip Code Extension	5	A/N	Use this field as necessary for the four digit extension of the zip code. Include hyphen in position 159. If unknown, fill with blanks	No
164 - 193	Transmitter Contact	30	A/N	Title of individual from transmitter organization who is responsible for the accuracy and completeness of the wage report.	Yes
194 - 203	Transmitter Contact	10	A/N	Telephone number at which the	Yes

District of Columbia Department of Employment Services
